MENTOR'S COMMENTS
1ST Learning Period- Job can be described as an adult trapped in a young boy's body. His mature take in almost everything he does is inspiring to witness.
2nd Learning Period– Job's maturity continues to improve this quarter. One challenge he has to overcome is to be able to control the urge to physically stop a misbehaving classmate. With reminders, Job would eventually master reminding his classmate using words only.
3rdLearning Period- Job has been expressing his interests recently. He would usually show it in his drawings. He is encouraged to talk about those with his classmates.
4th Learning Period – Promoted to First Grade.
